

Momentus Smart Imports

MOMENTUS SMART IMPORTS IS MOMENTUS AI FOR EVENT FUNCTIONS —
FAST, ACCURATE SETUP FROM THE FILES YOUR CUSTOMERS SEND

From spreadsheet to Event Functions — in minutes, not hours — with **Momentus AI**

Momentus Smart Imports Benefits

Reduce hours of manual copy/paste and rework

Import Event Functions in bulk from CSV, XLS, or XLSX

Catch missing or invalid details before you import

Detect potential duplicates before they hit the schedule

Keep a built-in audit trail of what changed and when

IMPORT EVENT FUNCTIONS THE WAY YOU WORK

The details arrive. You need them in Enterprise.

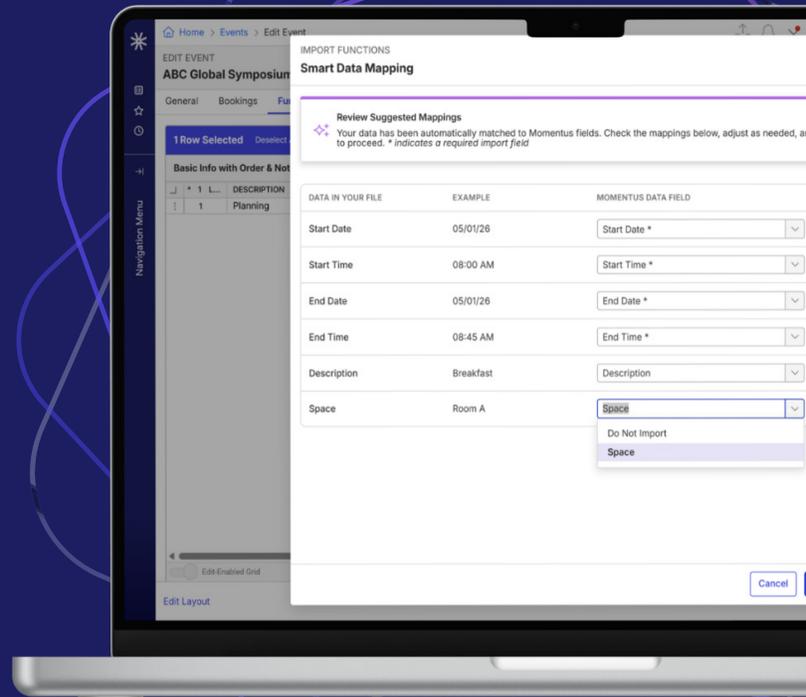

- “Here’s the updated function sheet”
- “We changed times and added breakouts”
- “Can you load this today?”

Upload the file. Review what’s detected. Import with confidence.

FIX ISSUES BEFORE THEY BECOME REWORK

Smart Imports flags missing or invalid data early—so you can correct it before it impacts the event.

- Validate required fields before importing
- Apply Smart Fix or edit in-line
- Resolve potential duplicates with replace, skip, or keep both

BE THE HERO AT YOUR VENUE WITH **MOMENTUS AI**

BEFORE SMART IMPORTS

- Event details arrive in spreadsheets and emails
- Planners retype Event Functions line by line
- Errors and duplicates create last-minute rework

WITH SMART IMPORTS

- Upload your file—no template required
- Validation catches issues before import
- Duplicate detection prevents double-entry

THE RESULT

Faster setup. Fewer errors. More time to run the event. Powered by Momentus AI.
