

Extraordinary moments.

Momentus platform

CORPORATE EVENT MANAGEMENT SOFTWARE

See how Momentus cloud-based platform transforms space and event management for modern corporate campuses to offer employees premium hospitality workplace experiences.

Offer employees a premium hospitality experience.

Improve efficiency in managing corporate facilities and enhance employee experiences in hybrid office environments on our modern, purpose-built platform.

Leverage detailed event and financial reports to streamline operations, simplify catering management, reduce expenses and improve employee satisfaction.

Join Nike, Microsoft, Google and more who rely on us to efficiently manage their campus facilities and strengthen their workplace culture.

One digital platform for employees to book spaces and request event services.

Improve Workflows

Replace manual processes with automated workflows for booking spaces, catering requests and more.

Increase Efficiency

Unify corporate employees and service contractors onto one platform to manage simple and complex events.

Improve Productivity

Encourage employees to collaborate on campus with easy-to-use online space reservations and online catering orders.

Streamline Catering

Create a collaborative canvas with your foodservice provider to provide real-time information sharing and avoid sifting through emails and event plans.

One Calendar

Manage all corporate spaces and events from one campus-wide calendar to improve visibility and efficiency.

Customize Reports

Quickly generate detailed reports to improve operational visibility and accountability.

It's time to deploy Momentus.
